ATALANTA J

25.43m (83'5"ft) | 1958

DESCRIPTION

ATALANTA J presents a rare opportunity to purchase an iconic wooden Feadship that could use some TLC above and below decks. She was delivered in 1958, and most recently refitted in 2014. This refit saw the addition of more storage and seating capacity, alongside a sheltered dining area under the semi-permanent bimini. She has an upper and lower salon, as well as outdoor dining for eight.

ACCOMMODATION

Up to eight guests can be accommodated across four cabins, with additional space for two crew. The lodging comprises an owner's cabin with two queen-size bunks, a wash basin and an en-suite bathroom, plus three twin cabins with wash basins and a shared bathroom.

MAINTENANCE HISTORY

ATALANTA returned to Dorr Lemmer in 2011 for a freshen up. Work completed includes:

- Frames in rudder compartment replaced as part of ongoing maintenance programme.
- Humidity damage in two guest cabins rectified. This was caused by a minor deck leak which has also been solved.
- Both cabins were also refurbished.

In 2005 the current owner instructed Dorr Lemmer of Holland to carry out a full refit/rebuild of ATALANTA. Felix Buytendijk was retained to deal with the interior design. The necessary steelworks were carried out by Werkvreugde. The technical aspects of the refit were managed by Beekman, and De Vries built the awnings. The works were carried out between 2006 and 2008 and covered the following aspects:-

- Superstructure repaint
- Teak deck replacement
- Mast rebuild
- Anchor winch rebuild
- Electronics replacement
- Replacement of the bridge instrumentation area
- Replacement upholstery
- Renewal of galley
- Remodelling of the dining area and saloon
- Replacement biminis
- Electrical wiring and systems replacement
- Fitting of bowthruster
- Fitting of air conditioning
- Fitting watermaker

This list is by no means exhaustive but does cover the main areas.
